

Levent Irmak, graduated from Istanbul Technical University as a Civil Engineer in 1991 and subsequently completed his master's degree in construction management at Northeastern University in Boston, USA. Until 2006, he worked as a Contracts and Claims manager in large-scale infrastructure and superstructure construction projects in Boston and New York. After working as a construction contracts consultant in

the Marmaray project in Istanbul between 2006 and 2012, he established his own company and started to provide consultancy services for contracts and claims in international projects. He is currently managing MC2 MODERN International Construction Project Management and Consultancy Inc. He has contributed to many construction projects such as wastewater treatment plants, railway construction and modernization, road construction and rehabilitation, multi-purpose real estate investment projects, hospital, university, residential buildings and hotel projects, pipeline construction, power plants and mining enterprises in more than 20 countries in Europe, Middle East, Africa and Asia. As an accredited trainer, he provides trainings on international FIDIC Suites of Contracts and has contributed to the professional development of hundreds of professionals in 40 different countries. He served as one of few international commentators of FIDIC Conditions of Subcontract (2011) and 2017 FIDIC 2. Edition Red, Yellow and Silver Books as a friendly reviewer. He has been appointed as a member of the Dispute Board (sole and three-member Boards and as the Chairman of the Board) in many construction projects in different countries, and also served as an Expert Witness in international arbitration cases. Between 2013-2018, he served as a member of the Board of Directors of DRBF-Dispute Resolution Board Foundation Region-2 and between 2016-2017 as the Chairman and is currently the Chairman of the DRBF Region-2 Pupillage and Mentoring Committee. He is a member of DRBF, FIDIC, EFCA, TMMMB (Association of Turkish Consulting Engineers and Architects) and ISTAC (Istanbul Arbitration Center) Construction Committee.
